Michigan Fishing Report

September 27th, 2010

Salmon are spawning.

Pere Marquette

Water Conditions – average

Fish are all over the middle river on the gravels and fishing can be good if you hit them right. There are still good pushes of fish coming up the lower river and we're still catching some, but mostly they are shooting upriver pretty quick and it helps to have a sunny day so that they hold in the deep holes. *Matt Dunn*

Manistee

Water Conditions - average

Good numbers of salmon below Tippy Dam with some steelhead thrown in for good measure.

Muskegon

Water Conditions - average

Trout fishing has been good below Croton and more salmon are moving up everyday. *Phil Cusey*
